

ECON 3010 Intermediate Macroeconomic Theory

Homework #5

Due: Tuesday, October 30, 2018

Ten *LaunchPad* multiple-choice questions. You have unlimited attempts to complete the assignment and they are due at midnight on the date above.

The written questions below are due at the beginning of class and should be typed.

1. Chapter 6. Problems and Applications #1.
2. Chapter 6. Problems and Applications #2.
3. Go to FRED (<http://research.stlouisfed.org/fred2/>) and provide historical times series graphs for the Canada/U.S. nominal exchange rate and the price indices for both countries. You are free to use either the CPI or GDP deflator, but make sure the base years for the two countries are as similar as possible. Then use Microsoft Excel, this data, and the formula from class to calculate (and graph) the real exchange rate. Comment on the results.
