

ECON 5350 Problem Set #8

Presentations. Each group is responsible for a presentation on the topic below. The presentation should involve econometric theory and a MATLAB application. You are free to use simulated or actual data. Please send me copies of your slides, data, and code prior to class. I will post them on our class website. Presentations will be scheduled during the week prior to finals and should be approximately 30 minutes.

- Presentation #1. Connor and Katie. (TOPIC: Missing data)
- Presentation #2. Tristin and Daniel. (TOPIC: Delta method)
- Presentation #3. Caleb, Faria & Taras. (TOPIC: White's standard errors)
